When we consider the $9/5$ of five-fold symmetry (the biological) and the $5/3$ and $11/6$, of six-fold symmetry (the physical), we can make three equations and therefore find a place in space. If we let the parameter, t , be zero we have a place in space that is near the SETI Wow! Signal (extraterrestrial message) in the constellation Sagittarius. If we let the parameter, t , be eliminated we have a place in space that points to the constellation Aquila. The former relationship came to me via a Gypsy Shaman called Manuel in Granada, Spain. The latter relationship came to me via a Fordham University professor and science fiction author called Paul Levinson, in New York. The former and latter relationships stemmed from separate and independent research about two totally different topics, the former dealing with what I call the Yin and Yang of the Universe, the latter Fiction-Reality Entanglement, or what could be called the unfolding of the McKenna time-wave. Now we find the two concepts are part of one theory.
